## Product Description

Smoother And More Durable Than Standard Paper Bag Flint Glazed Paper Glassine Paper Bag

### Product Description:

**1. Grabin paper bags are recyclable, biodegradable, and made of renewable materials.**

Grabin paper bag is a smooth paper bag made of wood pulp. It is coating free, easy to recycle, and naturally biodegradable. Grabin is pH neutral, acid-free, and resistant to moisture, air, and oil, making it an excellent alternative to plastic packaging.

**2. Grasing paper bags are durable and translucent.**

Through the super calendering process, the Graben paper bag has its unique characteristics of smoothness, transparency and gloss. Grating is double that of other ordinary paper density of paper bag (40-90 - g/m<sup>2</sup>), make it more solid than the standard of the same weight paper, more durable. Its translucent nature will display the product, the customer can also understand the product, and can accurately scan the barcode of the product in the bag.

**3. Glashin paper bag helps brand shine.**

Due to the smooth touch and absence of static electricity, the product will be displayed as it is. Grabin paper bag can print LOGO, brand color, FSC label information and sustainable development advantages and other content, and because Grabin paper bag is very environmentally friendly, consumers will leave a lasting impression on the packaging bag, almost increase the environmental protection attributes of the brand.
