Product Description

Strong Self adhesive Sticker 100% PLA Cornstarch Bags Eco Friendly Packaging for Express Shipping

Product Description:

Our fully biodegradable delivery bags are not only functional, but also environmentally friendly. Its composition is based on cornstarch, which guarantees that it breaks down easily and leaves no harmful residues. This means that they can be safely disposed of without any harm to the environment. Our bags can be customized in different colors and can be printed in simple 1 to 8 colors, which can be customized according to your specific needs. In addition, our bags are self-sealing bags, which can improve the packaging efficiency. The glue used to seal the bags is self-adhesive, which can ensure that the glue is still strong sticky when the bags are used.

So whether you're an individual looking for a sustainable and environmentally friendly delivery bag option, or a business looking to reduce its impact on the environment, our 100% biodegradable polylactic acid corn starch bag is the perfect choice. With their self-adhesive closed, self-sealing design, and customizable color options, these bags are sure to meet all your packaging needs.
