Product Description

Customizable Self Adhesive Eco Friendly No Plastic Content Cornstarch With Stretch Feature

Product Description:

The self-adhesive sticker closure type of these bags ensures that your items are safely protected during transportation. This feature also makes the bag easy and convenient to use, saving you time and effort in preparing your items for delivery.

Our 100% biodegradable polylactic acid cornstarch bags are the perfect delivery service. You can use them to pack a wide variety of items, such as documents, clothes, and small electronics. These bags provide a simple printed surface that makes it easy to add your company logo or any necessary information to the packaging.

Besides being durable and convenient, these bags are also environmentally friendly. They are made from renewable resources and are fully biodegradable, making them an excellent alternative to traditional plastic packaging. With our 100% biodegradable polylactic acid corn starch bags, you can not only meet your business needs, but also contribute to a cleaner, more sustainable environment.
