Other attributes:

Industrial Use	Transport/Package/Mailing
Place of Origin	China
Brand Name	HuanQiu
Size	Custom
Color	Can Be Customized
Logo	Can Be Customized
Delivery Time	7-18 days
MOQ	10000pcs or Negotiation

WHY ? YOU CHOOSE

BIODEGRADABLE MAILER BAG

The large-scale use of traditional plastics and the subsequent irregularities in the recycling system have caused environmental pollution problems to become increasingly apparent. The plastic itself and additives in the processing process endanger the soil and the ocean, and bring great harm to human health and the ecological environment. At present, disposable plastic products account for a quarter of the entire plastic consumption, which is about 100 million tons. Only 10% is recycled, another 12% is incinerated, and more than 70% is discarded into the soil, air, and ocean.

COMPOSTABLE

Biodegradable plastics are also called biodegradable plastics and biodegradable plastics. They can be completely degraded in nature or under certain conditions such as composting, anaerobic or aqueous culture fluids, depending on the action of microorganisms such as bacteria, molds, and algae. Carbon dioxide, methane, water, etc.
