Product Description

Custom Printed Biodegradable Self Sealing Courier Bags In Black

Product Description:

Our biodegradable express bag is made of photooxygen degradable materials, which are blown with new materials. It not only has all the characteristics of traditional plastic bags, but also can decompose naturally in the sun without harming the environment, making it an excellent alternative to traditional plastic bags. The biodegradable delivery bag is made of new material blown film, very durable, can withstand wear and tear. You can be sure that your belongings will arrive at their destination in one piece. These bags are equipped with self-sealing tape, the general length is 4 to 5 cm, convenient for you to pack the goods, you do not need to worry about the stickiness of the tape, because it is made of self-adhesive.

If you want to customize your own packaging for your products, of course, no problem, you just need to provide your needs to contact our customer service, we will try to meet your needs. Our biodegradable delivery bags are a great choice for anyone who wants to protect their items during transportation while also having a positive impact on the environment. Try our biodegradable transport bags now and experience the convenience and peace of mind they offer!

Delivery Time (days)	3-5	10-12	To be negotiated

WHY ? YOU CHOOSE

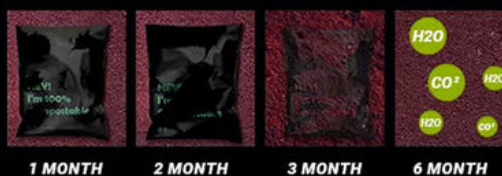

BIODEGRADABLE MAILER BAG

The large-scale use of traditional plastics and the subsequent irregularities in the recycling system have caused environmental pollution problems to become increasingly apparent. The plastic itself and additives in the processing process endanger the soil and the ocean, and bring great harm to human health and the ecological environment. At present, disposable plastic products account for a quarter of the entire plastic consumption, which is about 100 million tons. Only 10% is recycled, another 12% is incinerated, and more than 70% is discarded into the soil, air, and ocean.

COMPOSTABLE

Biodegradable plastics are also called biodegradable plastics and biodegradable plastics. They can be completely degraded in nature or under certain conditions such as composting, anaerobic or aqueous culture fluids, depending on the action of microorganisms such as bacteria, molds, and algae. Carbon dioxide, methane, water, etc.

PRODUCT DESCRIPTION

SILK SCREEN PRINTING

In order to avoid the occurrence of defective products in the bag, we must ensure that the logo is 4CM away from the boundary of the bag, as explained in the picture :).

FULL PRINTING (PRINTING MACHINE)

We can do full printing. Full printing needs to be done by machine. So the cost is higher than screen printing. That's why we print logos by screen printing if the quantity is less than 3000 pcs.

F&Q

Q1. Can I have a sample order for Express bag?

A1: Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

Q2. Do you have any MOQ limit for plastic bags order?

A2: Yes, The MOQ for custom size is 10,000, but the MOQ for custom logo on stock size is 100

Q3. How do you ship the goods and how long does it take to arrive?

A3: We usually ship by DHL, UPS, FedEx or TNT. It usually takes 7-15 days to arrive. Airline and sea shipping also optional.

Q4. How to proceed an order for plastic bags ?

A4: Firstly, let us know your requirements or application. Secondly, we quote according to your requirements or our suggestions. Thirdly, customer confirms the samples and places deposit for formal order. Fourthly, we arrange the production.

Q5. Is it OK to print my logo on plastic bags product?

A5: Yes. Please inform us of your specific printing needs, we will make a quotation, if the price is suitable, we will enter the order confirmation process.
