Bag with different thickness are available, and can be customized to meet your specific requirements.</p>
Transport	<p>By Express (3-5 working days), suitable for Urgent Time and Small Quantity.</p> <p>By Sea (15-30 days), suitable for regular Mass Production.</p> <p>By Air (5-7 days), from Airport to Airport.</p>
Sample	<p>Ready-made samples: available free of charge, only postage required</p> <p>Custom exclusive sample: according to the actual quote proofing fee</p>
Keywords	Mailing Bags, Custom Envelope Bag, Delivery Courier Bags

### Product Description:

The Express Delivery Bags are high-quality mailing bags designed to provide secure packaging for a wide range of products during shipping. Originating from China, these bags are known for their durability, tear-resistance, and waterproof properties, making them an ideal choice for businesses looking to ensure their items reach their destination safely.

The main feature of these bags is their durability. Constructed from thickened plastic material, they are strong enough to withstand rough handling during transit, offering protection to the contents inside. This durability ensures that the bags maintain their integrity throughout the delivery process, giving both the sender and recipient peace of mind.

Another key attribute of the Express Delivery Bags is their tear-resistant nature. The sturdy construction of these bags makes them highly resistant to tears and punctures, further safeguarding the items enclosed within. This feature is particularly important for businesses shipping delicate or valuable items that need extra protection during transportation. Moreover, these mailing bags are waterproof, providing an added layer of security against moisture and environmental elements. This waterproof feature ensures that the contents remain dry and undamaged, even when exposed to rain or other wet conditions during delivery. This is especially beneficial for businesses shipping items that are susceptible to water damage.

The closure type of these bags is a self-sealing adhesive strip, which offers a convenient and efficient way to seal the bags securely without the need for additional packaging supplies. The adhesive strip ensures a tight seal that prevents tampering and keeps the contents safely enclosed until they reach their destination. This user-friendly closure type streamlines the packaging process for businesses, saving time and effort.

One of the key customizable options for these bags is the color. Businesses have the flexibility to choose a color that aligns with their branding or preferences, allowing them to create a cohesive and professional packaging solution. The ability to customize the color of the bags enables businesses to enhance their brand visibility and create a memorable unboxing experience for their customers.

For businesses looking to further promote their brand, these Express Delivery Bags offer the option of custom logo printing. By adding their logo or branding elements to the bags, businesses can create a personalized packaging solution that not only protects their items but also serves as a marketing tool. Custom logo printed bags help businesses increase brand recognition and create a lasting impression on recipients.

### FAQ:

Q1. Is Classic Poly Mail completely waterproof?

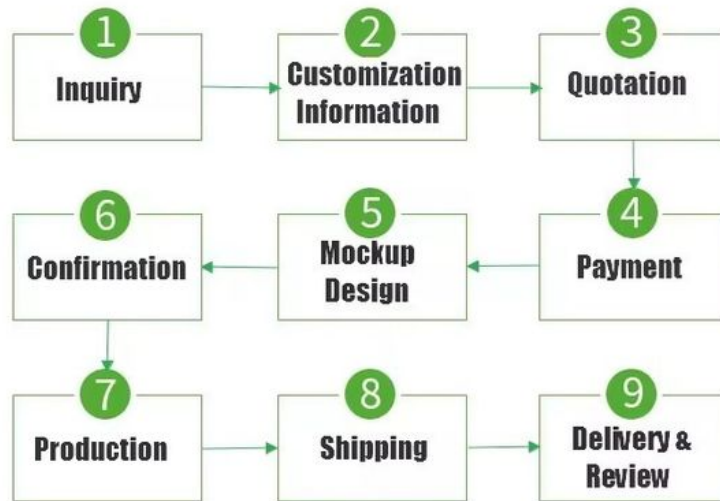

Yes, they are. Our printed mail bags are made of highly durable PE film. This material is great as an extra protective layer to protect your box from rain, water and snow.

Q2. What are the common uses for Classic Poly Mailers?

The classic Poly Mailers can be used as an additional packaging solution, as well as its own shipping solution. Soft goods such as clothing, textiles, bedding and fabrics can be shipped using printed mailbags, however, we recommend using Poly Mailers as brand add-ons during your shipping.

Q3. Can you print on the entire space of the printed pouch?

Printing of PVC throughout the space is allowed, only wholesale orders (minimum 10000 pieces). If you would like to order larger quantities of transport bags, please contact us for a quote.
